PURPOSE

We aim to ensure children and families are provided with an orientation procedure that allows the family to transition into the Service positively and informatively, meeting the children and families' individual needs. We strive to establish respectful and supportive relationships between families and the Service to promote positive outcomes for children whilst adhering to legislative requirements

SCOPE

This policy applies to children, families, staff, management and visitors of the Service.

IMPLEMENTATION

Orientation is an important process for children, families and Educators to gain vital information about the individual child's needs and interests. To enable children to feel safe and secure, and to set the foundations for a trusting partnership, we feel that it is necessary for the family to attend 4 orientation visits. These visits assist the child and parent / caregiver to adjust to a new setting and help to make the transition from home to the Service composed.

During orientation, Educators will discuss the following requirements in order to gain a better understanding in supporting the family:

- The cultural and/or linguistic background for families from non-English speaking backgrounds (external support may be required)
- The family's needs in relation to work or other commitments
- The family's previous knowledge or experience of other children's services
- Any additional needs of the child and/or their family
- The child's age
- Any court orders that are applicable to the child
- Service philosophy and curriculum

Management will ensure:

- The orientation process is well organised, flexible and informative
- The child and family visit the Service and familiarise themselves with the environment. The child may participate in the activities and experiences if they feel comfortable.
- The family and child/children are introduced to the Educators in the room
- To create a welcoming environment and interact positively with the child and family
- The child and family is respected at all times, acknowledging the individuality of each parenting style.
- To encourage families to ring, email or visit the Service as often as they like once enrolment has commenced
- The child is allocated a Focus Educator
- Families are reassured if the child is distressed over a long period of time, the educators will contact them.
- Support agencies are contacted for children with additional needs
- Families know how to provide feedback.

Educators will:

- Greet children and families upon arrival
- Discuss with families the best transition process for the child
- Encourage families to say good-bye to the child when dropping off
- Phone families if the child remains distressed
- Encourage families to stay as long as they need to in order to reassure their child
- Seek information about the child and family throughout the orientation process.
- Create a welcoming and inviting environment

During the orientation of the Service, families will be:

- Given the Service enrolment form to be completed
